

Gifts of Life Insurance

Gifts of new or existing life insurance policies to the ACSM Foundation enable the donor to make significant gifts at a relatively low cost.

How it Works: _____

- Transfer ownership and/or beneficiary designation of the policy to the American College of Sports Medicine Foundation.
- Donor can continue to pay premiums (if any) to the foundation or simply make the foundation a beneficiary or contingent beneficiary of an existing policy.

Benefits: _____

- Donor has the satisfaction of making a significant gift at a relatively low cost.
- Income tax benefits are realized if the foundation is both owner and beneficiary of the policy.
- Flexibility for the donor and continued security for family members is retained if the foundation is named a contingent beneficiary or one of several beneficiaries, with the donor keeping ownership of the policy.
- There is a reduction in estate taxes, since the proceeds are removed from the donor's estate.

Benefits to ACSM: _____

- Following the lifetime of the donor, the gift will be used for the benefit of ACSM according to the donor's wishes.
- Often the gift is much larger than can be given during a donor's lifetime.

Note: The correct legal name for use in all documents is: "The American College of Sports Medicine Foundation, a not-for-profit corporation organized under the laws of the state of Indiana and located in Indianapolis, Indiana."
